Part III REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach, disclose, or suggest the claimed limitations of (in combination with all other limitations in the claim), a common processing module for providing a common image processing that quantizes image information for a printer connected to the information processing apparatus irrespective of the type of connected printer; a plurality of individual processing modules each providing a different image processing that modifies the image information quantized by the common processing module for a printer connected to the information processing apparatus depending on the type of connected printer; and means for switching among said plurality of individual processing modules in accordance with the type of the connected printer as claimed in claim 1. Similar features are claimed in claims 2, 11, 12, 22, 23, 31, 36, 41, and 51-53. Therefore, claims 2, 11, 12, 22, 23, 31, 36, 41, and 51-53 are allowable over the prior art of record for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
